Energy Regulation & Permitting

Renewable Energy

Ryan brings industry intelligence to clients pursuing cutting-edge energy development.

Ryan advises utilities, independent power producers and transmission companies and pipeline companies on siting, routing, permitting and other regulatory matters before the Minnesota Public Utilities Commission and other federal, state and local agencies.

Prior to joining Fredrikson, Ryan worked in the General Counsel's office of a nationally recognized regional utility holding company where he gained unique insight into Minnesota Public Utilities Commission regulatory proceedings, municipal energy grids, critical infrastructure land and easement disputes and renewable energy initiatives.

Experience

- Part of a team representing an independent power producer in solar farm siting proceeding in Minnesota.
- Part of a team representing an independent power producer in wind farm siting proceeding in Minnesota.
- Part of a team representing an independent power producer in transmission routing proceeding in Minnesota.
- Part of a team representing a carbon dioxide pipeline company seeking approval for pipeline route in Minnesota.
- Part of a team representing a nationwide telecommunications provider in residential and commercial POTS discontinuance proceedings in Minnesota.
