

Commitment

fredlaw.com

As we continue to grow and expand our geographical footprint, our commitment to our expanding community also grows. While the last few years have brought many changes to our lives and communities, we have witnessed social change and collective awareness; we have found new ways to stay connected and safe. We saw communities devastated by social unrest and riots, but we also witnessed the unshakable resilience and tenacity of individuals and organizations determined to build back better and to bring hope to those in need.

Through it all, Fredrikson and its lawyers and staff stood shoulder-to-shoulder with the real heroes, our clients, to help right wrongs and injustices and to bring relief, hope and resources to those in need. Most did so unceremoniously, unnoticed by many, but with an immeasurable impact on the most pressing and personal needs of individuals and organizations. Our engagement is defined by the things that matter to our communities, our neighbors and non-profit partners.

Social responsibility is not something new or trendy at Fredrikson. It's just part of our culture and our community-driven approach. We recognize the power of collaboration and relationships and have always been fully committed to bringing people together to advance justice causes – through pro bono representation, board service, volunteerism and partnerships.
