Avoiding the Unthinkable: Employee Embezzlement and Malfeasance

Event

04.04.2017

On May 3, 2017, Fredrikson & Byron's White Collar & Regulatory Defense group hosted a panel presentation on the real issue of employee malfeasance in large and small organizations. Our panel featured a business attorney, a former prosecutor, an internal audit consultant, a former FBI special agent and an insurance broker. The group explored how companies can protect themselves from criminal conduct and effectively address red flags as they are uncovered.

For more information on this program or the Fredrikson & Byron's White Collar & Regulatory Defense practice, please contact Joseph Dixon at jdixon@fredlaw.com.
