Overview

This session covered key legal issues for healthcare investors and business development teams, including issues related to healthcare startups, investments, licensing arrangements and data sharing. We discussed investment options (convertible notes, preferred stock, etc.), intellectual property issues, data privacy and security risks and practical tips for structuring and negotiating deals (due diligence, representations and warranties, indemnification provisions, exits, etc.)

Accreditation

We have applied for Continuing Legal Education (CLE) credit for this program in Iowa and Minnesota. Please contact Greta Larson at glarson@fredlaw.com if you are an attorney licensed in another state and would like information about obtaining CLE accreditation. We have also applied for Health Care Compliance Association (HCCA) credits. Webinar participants will be notified of accreditation upon program approval of CLE and HCCA credits (typically three or four weeks following the webinar).
