

## Fredrikson & Byron Stands in Solidarity with the Asian Community

### Firm News

03.22.2021

Fredrikson & Byron condemns racism and stands in solidarity with the Asian community in denouncing the thousands of incidents of anti-Asian hate and violence that have occurred and persist this year, and most recently the horrific murders in Atlanta.

We continue to pursue diversity and inclusion as core Firm values and to uphold the pledge we made last June to identify and confront bias, systemic racism, and social and economic injustice, both in our communities and at the Firm. We express our sympathy to members of our Firm, clients, and community members of Asian descent who are grappling with fear, loss, and pain.

We commit that even after the media attention fades, we will continue to do the work to fight racism, intolerance, and inequality.
